**DETAILED ACTION**

*Allowable Subject Matter*

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Independent claim 1 is allowed because it has been amended to include the line "wherein the cross-sectional area of the exhaust duct is substantially constant." As correctly stated by the applicant in the applicant's arguments neither Takamatsu nor Shiraishi teach an outlet having a substantially constant cross-sectional area. There is no motivation for further combining other prior art teachings with these teaching to produce the claim subject matter and therefore independent claim 1 is allowed, claims 2-10 are dependent on claim 1 and are therefore also allowed. It should be noted that the office is considering the word "substantially" to have a definite meaning as stated in the MPEP section 2173.05(b) and as used by the courts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
